The cheerleaders, great fans, parent night, as well as homecoming, game postponed, and then senior night made it a great season.

# *Bison's Model UN in Action*

Jill addressed the assembly.

Amy gives her rebuttal.

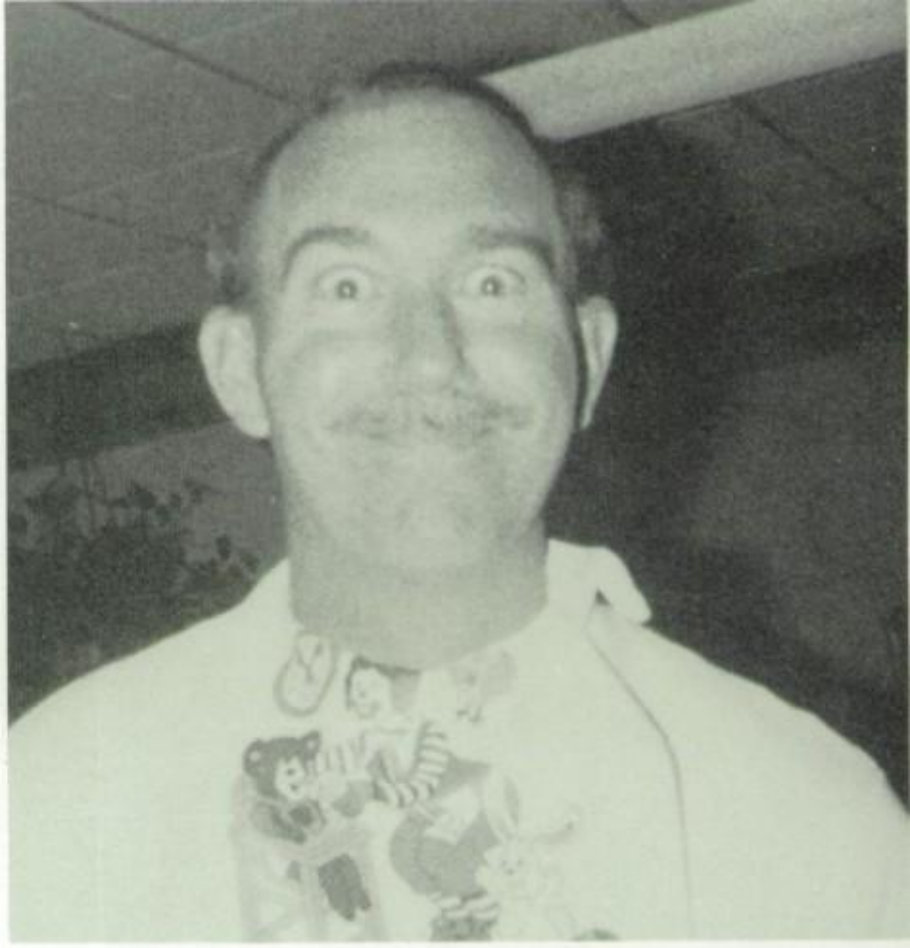
Mr. Wellman, advisor for the Buffalo group, is the chairperson for the Model UN.

Jeff states his country's position.

Our issues have remained the same, replies Toby.

"How much more time does he need?" asks Eric and Tim.

I know I have change somewhere!



I ate my spinach, now can I have my cookies, please.

T.O.F.T. Time out from testing for these students and time for an energy snack.

Well, have you read any good books lately?

"You can't imagine the day I had!" Can you believe this desk?" sighed Mr. Wellman.

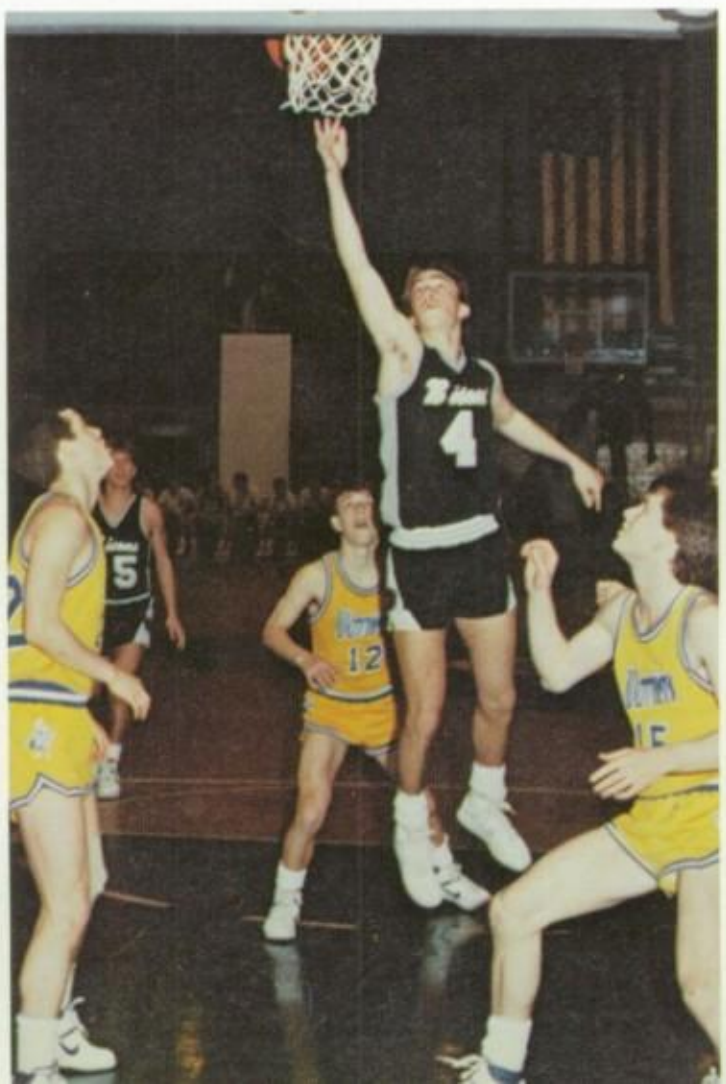
Busy cooks!

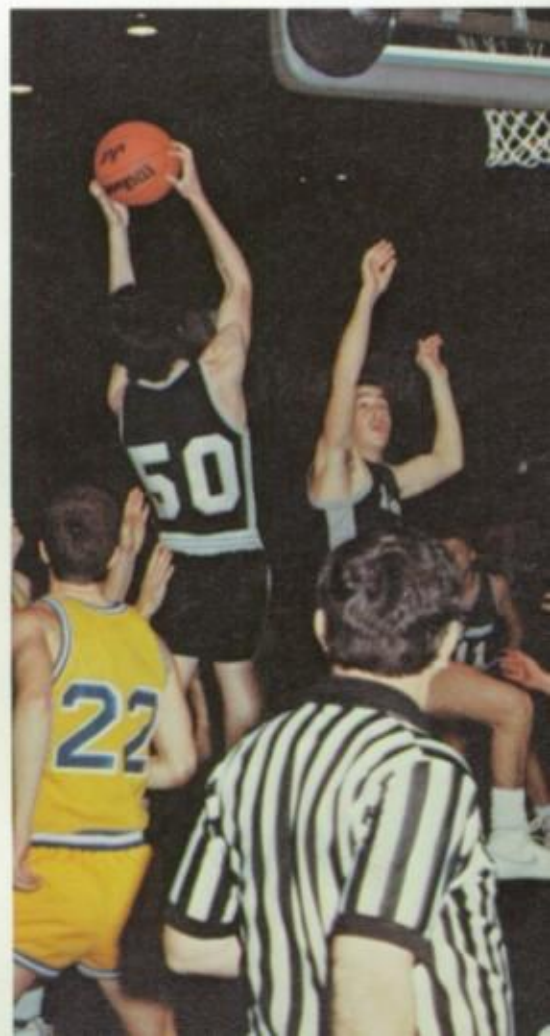
"Yes, it goes in the microwave," said Mrs. Dixon.

The song is gone, where?

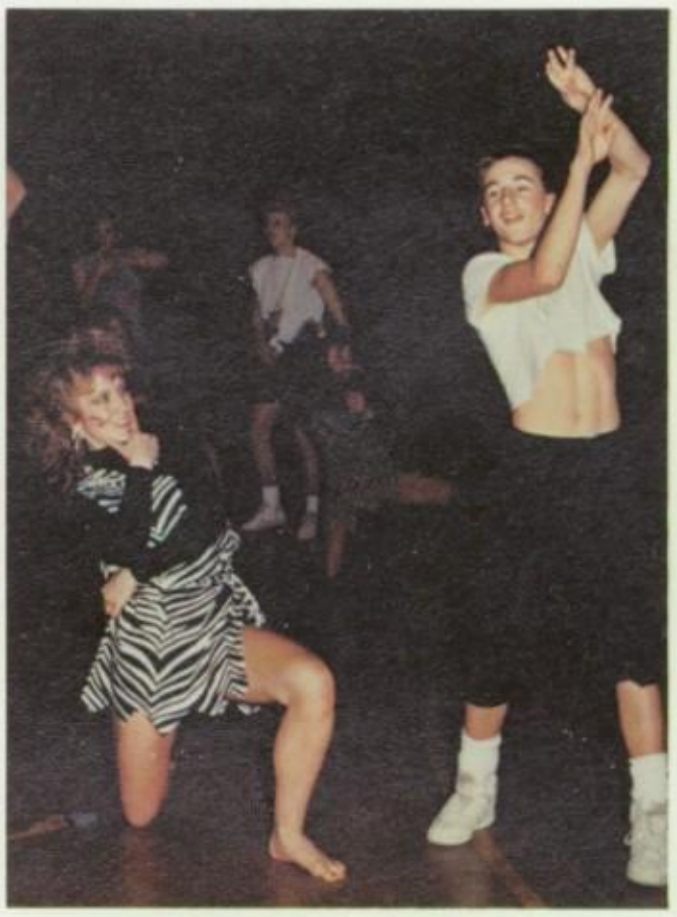
# St. Joe Tournament

"Jungle Love" was the theme entry for Buffalo High School at the St. Joe tournament. The cheerleaders, majorettes, band, and the basketball players carried out the theme before each game. We didn't win, but fun was had by all.

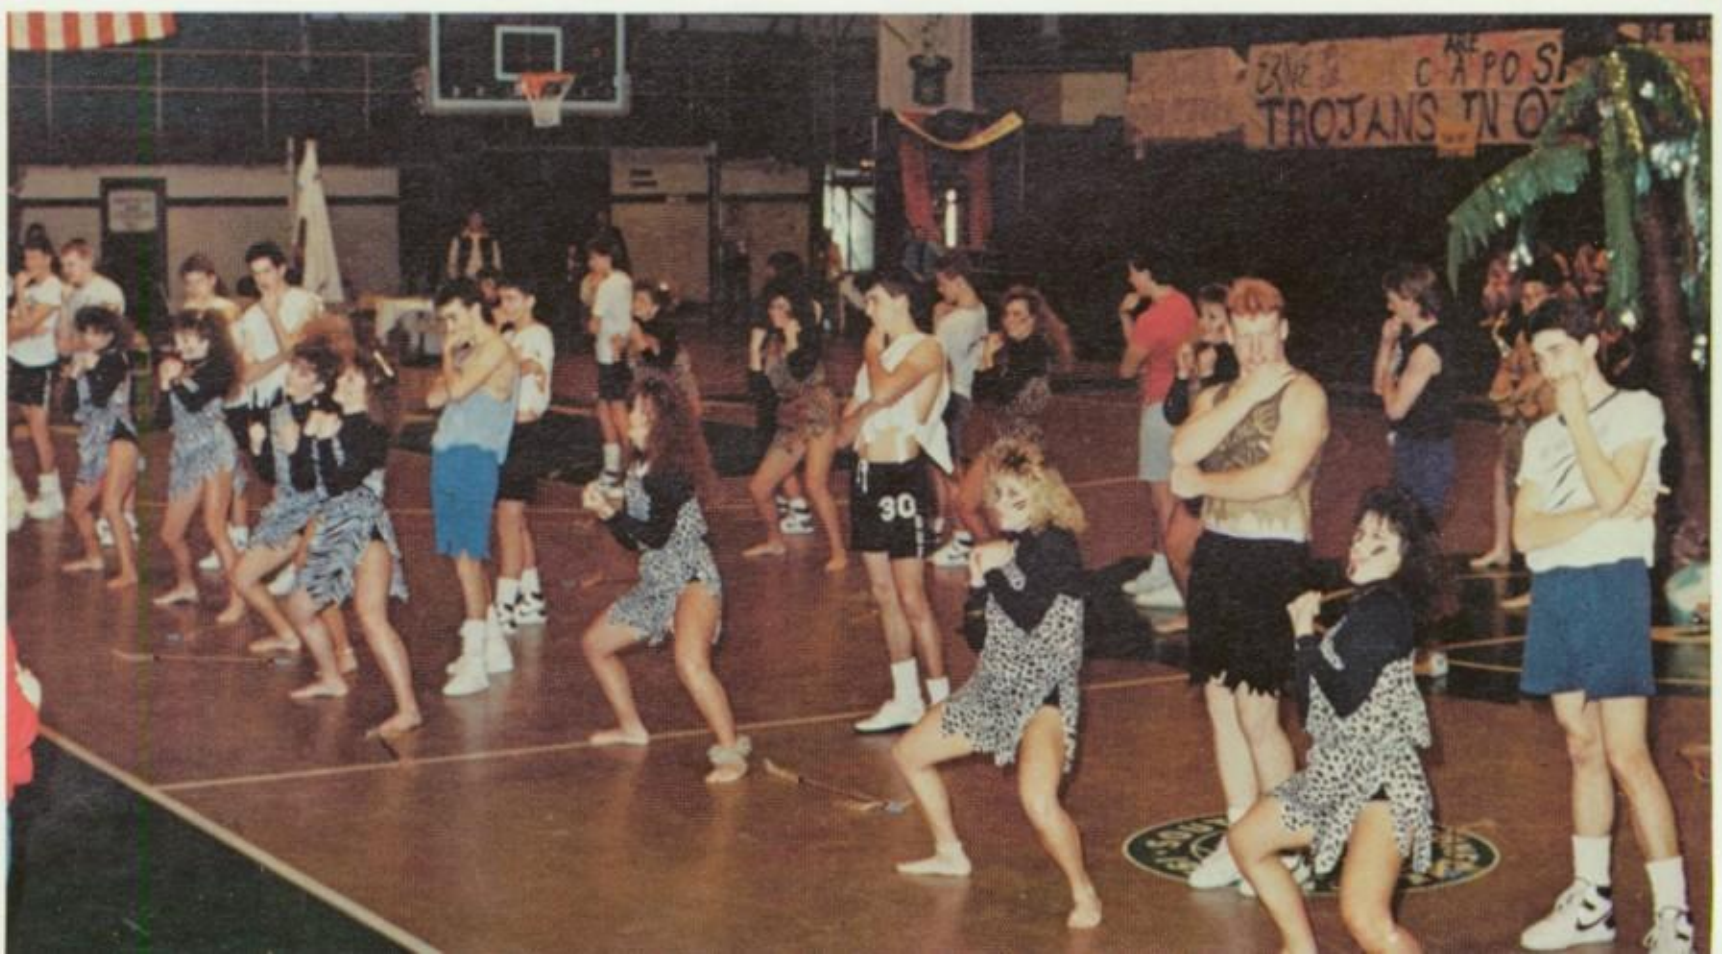


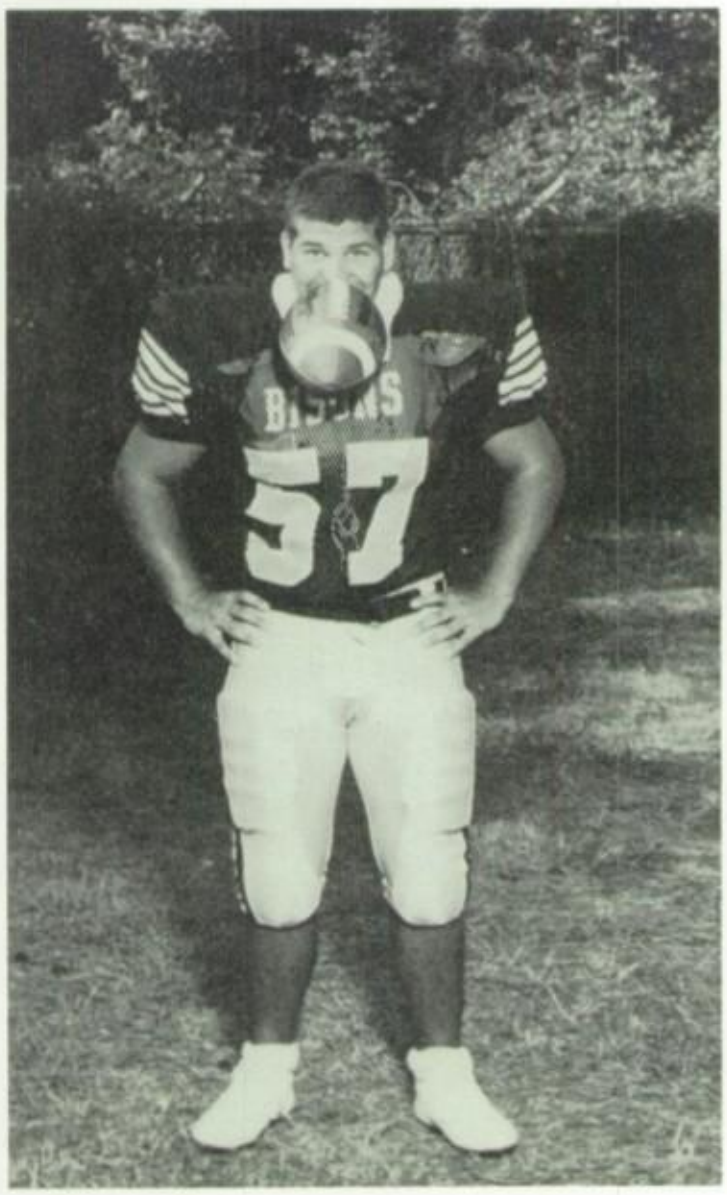


V I C T O R Y is the message being sent.



Jungle woman, is my hands OK now?





Pigskin is only a nick name, Dan.

Our new gym and four new classrooms.

Chow time!

That's not your bus, Steve.

Did I really do this? asks Mr. Bradley.

Do we look like the types that would take the bus keys?

# *JUNIORS*

Just one more year then we will be seniors. It has been a very busy year for some with the fund raisers for the Prom — Selling candy, jewely, magazines, etc; having dances, mainly the Homecoming Dance; and finally the Prom. High light of the year was Dennis Williamson, a junior, who aced the PSAT and ACT tests in Math, the first time in the history of BHS. Well, it has been good for some and not so good for others, but we look forward to our last year, the class of 1989.

English, Math, Science, and Social Studies have been mastered for another year by most. Now as sophomores, we begin to become more involved in school activities. Some play sports and others look forward to becoming members of the Honor Society and Mu Alpha Theta. Others work to maintain the "C" average and others hope just to pass. REWARD

FOR LOST WHAT-EVER?

# *FRESHMAN*

Just finished our first year at BHS. It took some time to learn to go to our lockers, to arrive in class on time, and to have our homework ready. I guess the best we liked about being at the high school was the salad bar at lunch time, for we could not have it as Middle Schoolers. We kept our laughter, kept on the go, and kept that boisterous attitude that made us Freshmen.

Helping the elderly . . .

Great progress for the Student Council this year. Officers and committees raised money and worked hard for their many projects: Student of the Month, awards, St. Joe aides, and the buying of a popcorn machine to be used by all clubs of the school. With a grant from the United Way, they were able to aid the elderly at the Wayne County Continuous Care Center; to develope an Adopt-A-Pet system; and to establish a Big Brother and Big Sister plan for those who qualified from the Buffalo Community. Excellent work from the group, under the direction of Mrs. Hale, made it a very good year.

***Images & Design***

This is an open letter to the students of Buffalo High School and their parents from the staff and management of Hodapp Images and Design.

During the last few months, education has been a hot subject in the news media and the legislature. As we all know, West Virginia is financially strapped, and as such, education along with almost every other service of state government is suffering. The only answer to West Virginia's problems will come with a TOTAL commitment from taxpayers, legislative bodies, and government officials to work together to bring about change.

We know, beyond the shadow of any doubt, that the faculty of Buffalo High is as good as any in the country. The quality of graduates that come from Buffalo is testament to this. But it is not just their training that makes them so special, it is their commitment to you, the student. We challenge you the student to meet their commitment. Apply yourself one-hundred per cent in the classroom, enthusiastically attacking your assignments in class and homework. When called upon by your teacher, rise to the occasion, since this time in your life will set the tone for your adult life. If an employer gives you a job to perform, it is not always an enjoyable one, but it is, none the less, one that will have to be done. Attitude is extremely important, a good attitude will make the task much easier.

Parents, get involved, communicate with teachers and most importantly with your children. A commitment by you to support students in class work, homework, outside activities, and parental advise, will go a long way to insure proper growth, and most importantly, listen to what your children are saying. Drugs, peer pressure, and adolescent insecurity take their toll everyday. Your support will greatly enhance your child's ability to cope.

But involvement must also come in other areas. We must all recognize the steps which must be taken to change our state's status will not come without some pain. We may indeed have to shell out more in tax revenue, but we strongly believe that our future IS worth it. Vote, it is a duty that many have died to guarantee, and ask questions of those running, so that you know EXACTLY where they stand on important issues. And then support these elected officials.

We love this community, this state, and believe firmly that West Virginia can turn around. Please get involved. And on the subject of love: of God, of Country, and of self, — all call for the same commitment, indeed a passion. The people who established this separated Virginia territory that was to become this state, were a passionate group, and we believe that spirit is today alive and well. It is said "You get out of life what you put into it." We cannot be content to sit and wait for things to happen, we must make them happen. START TODAY.

A good layout, Marsha

Mrs. Blair, advisor, with Stacy Sperry, Top advisor.

Those who helped, but no pictures are: Lee Oxley, Ric Massie, Mike Johnston, Pam Finley, Jamie Thornburg, Mike Hall, Steve Tomblin, Valerie Reed, Missy Staley, Dan Reece, Lisa Brumbaugh, and many others, Mainly some ninth graders. Stacy Sperry, who had graduated, came back to help with the yearbook. She taught the students to crop and to do layouts. With out her help and advice, we may not have had a yearbook for 1988. Mrs. Blair is greatly indebted. Thanks to Crystal Sperry for her help too.

Stephanie does the cropping right!

Missy looking for some ideas.
